

Tokyo

It would take a lifetime to get to know every facet of Tokyo, so large that it spreads as far as the eye can see. But look closely and you will find a city of exceptional charm and breathtaking efficiency. The Japanese capital is a fascinating tangle of opposites: the latest technology and traditional arts; crowded stations and quiet backstreets; concrete highways and green parks. Yet it all works like a dream.

Need to know

Get to grips with the basics

- 01 **City sticklers:** Etiquette rules here – when riding escalators stand on the left, don't cut to the front of a queue and be mindful about where you smoke in public.
- 02 **Table manners:** Avoid chopstick taboos: don't point the tips at anyone, never leave them planted vertically in your rice and never use them to pass food to someone else.
- 03 **Stand-up socks:** It's customary to remove your shoes when entering someone's home. If you want to avoid the embarrassment of padding around in socks with holes, stock up on a few new pairs before you arrive or head down to sock specialist Tabio.
- 04 **Cash out of hand:** When paying, don't hand money to the cashier: you will only be asked to place it in the tray. Don't worry about tipping either; it's not part of the culture.
- 05 **All hail the cab:** Tokyo's taxis are spotless, seats come with embroidered covers and drivers are courteous. They even open and close the back door for you (from their seat) so don't try to slam it shut or even open it.
