Istanbul

Beneath its inimitable skyline Istanbul is a teeming, triumphant metropolis with imperial history, intrigue and entrepreneurial zeal written into its streets. It's a city constantly being remade and reimagined, and the resulting sense of opportunity and vigour is palpable. From the domes of its mosques to the frantic pace of its traffic, Istanbul is awe-inspiring, unflinchingly and gregariously urban.

Essentials

Get to grips with the basics

- 01 **First impressions:** On a daily basis both men and women greet each other with a kiss to each cheek; male friends will hug. If you're invited into a more traditional home you should kiss the hands of the elderly members.
- 02 **Sharpen your elbows:** You'll notice Istanbul don't wait for passengers to alight from the tram before piling on – so just join the hordes wrestling for the door.
- 03 **Road rage:** Official pedestrian crossings are not the norm so be bold and nimble and establish eye contact with drivers as you cross. In areas such as Cihangir the pavements are patchy, potholed or non-existent.
- 04 **Blown away:** Locals have names for the winds that buffet the city: the Lodos, a southwesterly force, can bring balmy warm currents but also treacherous storms. Another wind, the Poyraz, comes across the Black Sea and can be punishingly cold in winter.
- 05 **Spoons be damned:** Never stir a Turkish coffee: there is a thick sediment at the bottom and you'll end up drinking the sludge.
